HOW TO HEAL WITH MASSAGE

Professional rehabilitation training

Sternocleidomastoid

Parts in Use: Silicone TIP

Trigger point: Middle of the sternocleidomastoid muscle belly
Red indicates the area of pain, × signifies the area for release.

Pectoralis Major

Parts in Use: Silicone TIP

Trigger point: Left – Sternocostal head of pectoralis major.
Right – Clavicular head of pectoralis major.
Red indicates the area of pain, × signifies the area for release.

Subscapularis

Parts in Use: Bullet TIP & Flathead

Trigger point: Beneath the scapula, at the subscapularis muscle belly.

Red indicates the area of pain, x signifies the area for release.

Serratus Posterior Inferior

Parts in Use: Buffer Cap & Bullet TIP

Trigger point: Upper muscle belly of serratus posterior inferior, near the 11th rib.

Red indicates the area of pain, x signifies the area for release.

Rectus Abdominis

Parts in Use: Buffer Cap

Trigger point: Upper and lower parts of rectus abdominis.

Red indicates the area of pain, x signifies the area for release.

Quadratus Lumborum

Parts in Use: Buffer Cap & Bullet TIP

Trigger point: Quadratus lumborum, near the lower 12th rib.

Red indicates the area of pain, x signifies the area for release.

Gluteus Maximus

Parts in Use: Silicone TIP

Trigger point: Inner upper side of the gluteus maximus;
mid-lower section of gluteus maximus.

Red indicates the area of pain, x signifies the area for release.

Quadratus Lumborum

Parts in Use: Silicone TIP

Trigger point: Below the 12th rib margin; beside the transverse process of the
3rd lumbar vertebra; upper part of the iliac crest.

Red indicates the area of pain, x signifies the area for release.

Serratus Posterior Superior

Parts in Use: Bullet TIP

Trigger point: Just under the scapula, where it attaches to the ribs.

Red indicates the area of pain, x signifies the area for release.

Serratus Anterior

Parts in Use: Silicone TIP

Trigger point: On the anterior, middle, and posterior bellies
of the serratus anterior muscle.

Red indicates the area of pain, x signifies the area for release.

Triceps Brachii

Parts in Use: Bullet TIP

Trigger point: Central area of the long head of the triceps brachii muscle belly.

Red indicates the area of pain, × signifies the area for release.

Flexor Digitorum Superficialis

Parts in Use: Bullet TIP & Silicone TIP

Trigger point: Central part of the flexor digitorum superficialis muscle belly.

Red indicates the area of pain, × signifies the area for release.

Extensor Carpi Radialis Longus

Parts in Use: Bullet TIP & Silicone TIP

Trigger point: Muscle belly of extensor carpi radialis longus.

Red indicates the area of pain, × signifies the area for release.

Adductor Pollicis

Parts in Use: Bullet TIP

Trigger point: Adductor pollicis, near the base of the thumb.

Red indicates the area of pain, × signifies the area for release.

Adductor Group (Thigh)

Parts in Use: Flathead & Silicone TIP

Trigger point: Middle of the adductor muscle belly.

Red indicates the area of pain, x signifies the area for release.

Rectus Femoris

Parts in Use: Flathead & Silicone TIP

Trigger point: Below the anterior inferior iliac spine.

Red indicates the area of pain, x signifies the area for release.

Tibialis Anterior

Parts in Use: Bullet TIP

Trigger point: Often present in the upper third of the tibialis anterior.

Red indicates the area of pain, x signifies the area for release.

Piriformis

Parts in Use: Bullet TIP & Silicone TIP

Trigger point: Inside, near the sacrum; middle third of the piriformis muscle.

Red indicates the area of pain, x signifies the area for release.

Semitendinosus and Semimembranosus

Parts in Use: Bullet TIP

Trigger point: Central intersection area of semitendinosus and semimembranosus muscle bellies.

Red indicates the area of pain, x signifies the area for release.

Posterior Tibialis

Parts in Use: Bullet TIP & Silicone TIP

Trigger point: Above the posterior tibialis muscle.

Red indicates the area of pain, x signifies the area for release.

Soleus

Parts in Use: Bullet TIP & Silicone TIP

Trigger point: Near the fibula, at the upper end of the soleus; central muscle belly near the tendinous intersection.

Red indicates the area of pain, x signifies the area for release.

Abductor Hallucis

Parts in Use: Bullet TIP & Silicone TIP

Trigger point: Near the heel, close to the arch of the foot.

Red indicates the area of pain, x signifies the area for release.
